

CLEAN & PURE SINGLE USE BIOPROCESSING
...it's in our DNA

CLARIPURE[®] 3D BioProcessing Bags (BPB) are manufactured in **ISO 14644 Class VII** certified cleanroom facilities, utilizing a 5 layer film (325µ) constructed with LDPE, EVOH & **ULDPE contact layer**. (For full specification please see our **PDS-SU001**) All additional fluid contact materials, components & assemblies use exclusively **USP Class VI USFDA & EUP** approved components. All components, BPBs & Assemblies can be supplied sterilised to **ISO/TS 13004**, typically Gamma Irradiated (**s25~40kGy**) – **ISO 11137 (SAL 10⁻⁶)**

CLARIPURE[®] 3D BIOPROCESS BAGS (BPB) ARE AVAILABLE IN BOTH STANDARD & CUSTOMIZED DESIGNS WITH MULTIPLE PORT CONFIGURATIONS, BOTH FOR MEDIA/BUFFER STORAGE & TRANSFER AND MIXING

OUR ENGINEERING TEAMS SITUATED IN SPAIN & ISRAEL ARE AT YOUR DISPOSAL TO DESIGN THE IDEAL PORT CONFIGURATIONS TO SUIT YOUR UNIQUE OPERATIONAL & PROCESS REQUIREMENTS...

MOBILE MIXING TECHNOLOGY UNITS AVAILABLE FOR BOTH
LABORATORY & INDUSTRIAL SCALE
1L – 2500L
